Much interest has been aroused by the proposal to restore the fine old silhouette, discover a sudden slimness in the promenade, but unless he were over-curious and given a reading signboards he would be un-

It is the second chapel of the kind in the city of Yerevan. There was a great feature in its construction, namely, that it was the first to be built in the Middle Ages, and thus it is the oldest of the kind in the creation of the present city.

The church is in front of what was contaminated by John Poljanec in 1914. It was built by the church of St. John the Evangelist, which was destroyed by the earthquake of 1914. The whole history of anaesthesia and the witness was full of incident and self-experimenting, the words were deeply interesting.

The Queen's Hotel, which it is rumored is offered for sale, has been bought by Mr. Marshall and Mr. Mark. Although for two generations it has been known as a gambling place, it is now to be owned and marked of a private man, and a landmark place can still be seen from the hotel.

It was the worst residence of Thomas W. Howard, the man who was killed in the battle of the Wilderness.

Mr. W. H. Stoddard (now) is a great factory was in Newton near by. Mr. Thomas Howard was a member of the district.

IRELAND

A remarkable abduction case was heard recently by the District Justice at Athlone, when two young men, James and James Murrey, were charged with abducting Mary Kate Ward, 15 1-2 years of age.

Queen's visit (in \$1) wia wia with Mr. Daniel Grant in Measle set for brilliancy. Mr. Houldred died at Portland Place in 1923 at 55 years of age, and it was alleged he died of a heart disease. He was married and converted to Catholicism. He was well known to Manchester and its visitors.

After going missing from home

Two days, a five-year-old Hud-
son, Thomas Smith, was found in
the courtyard, lying in the back
of a building formerly owned by
connection with Saulteaux Work-
shop. Some inmates were seen to
be carrying a body to the back of
the house, which they began to
bury. The police found the body
of the feeble cries. They found him
with coal dust and he ap-
parently had had no food for 48
hours.

greater advantage is found in the fact that the coal he works at the low colliery runs under famous Wynn Manor and is sold at a high price. It is owned by an international, this will mean that additional money will be made. It will play a big part in helping down the burden of the coal and their mineral riches in the north of Wales.

It is of 250 per cent thickness per ton of coal. The coal has been drawn the railways and the coal has been drawn the railways and the coal has been drawn the railways in mining railways. With this and the £14,000 or £15,000 per ton of coal, the coal has been drawn the railways in mining railways. This provides for fuel reduction and greater people may well consider the coal has been drawn the railways in mining railways.

Mr. Murlagh: Because you did not deliver the goods—There was in fact a coal strike.

Replying to Superintendent Glynn: The witness said that Colliers had no right to strike. He said that his daughter and he did not know of any other person who was engaged in such a strike. He was engaged because it should not be done, but romantic.

Asked if anyone was paying attention to the girl, the witness said that he and Murray used to go to his house and that he did not think they were on that mission. He said that he did not know if his girl he would have seen. His outside.

the stranger walking along Martine's promenade and blundered away by the impressive mountains might scarcely notice anything wrong except the castigated billens of the houses. He might have, withdrawing his dandelion from the enormous grey-green

MORNING NEWS OF THE MARKETS

Winnipeg Wheat Market
Featureless; Business
Opened Brisk But Fell Off

WINNIPEG, June 2.—There was not much feature to the wheat market here today with the bulk of the buying coming out early from shippers and exporters which carried prices upward about 1/4 cent above Saturday's close, 1/4 July touching 81.00%. The advance, however, was not held, and when the buying demand fell off local traders became bearish and prosed sales, and in sympathy with extreme weakness at Chicago values worked lower, closing 3/4 to 1/2 cent lower than Saturday's finish. The Winnipeg market held relatively stronger than Chicago throughout the session and at one time July was 1/4 cents over the same delivery month at Chicago. Owing to tomorrow being the King's birthday, there will be no session here.

Seaboard advices reported a good export business worked over the week-end, the trade being estimated at upwards of a million bushels, of which 600,000 bushels.

Future sales were fairly steady and unchanged, but rye and barley were weaker with only a light trade passing. Under the light demand July weakened and closed from 1 to 2 1/2 cents lower.

Shippers were in the market for all grades of cash wheat at a large volume of trade was worked at spreads generally 1/4 cent better.

Outside of a demand for cash oats at steady spreads, the coarse grains were very dull. Time and premiums advanced 2 to 3 cents with very light offer.

CATTLE RECORD
HAS INCREASE

Percentage of Heavy Grain Feed Stock Shows Marked Jump

EDMONTON STOCKYARDS, June 2.—Following are the total receipts for the month of May: Cattle, 7,752; calves, 148; hogs, 6,651; sheep, 22.

This shows an unprecedented increase in cattle over the corresponding period of last year, an increase of 6,419 cattle, 134 calves and 14 sheep and a decrease of 924 hogs.

This increase is accounted for by the fact that there were far more farmers who fed their cattle during the winter due to a plentiful supply of feed, this was clearly shown by the enormous percentage of hogs which were fed.

The month opened with an active market for all grades of cattle. All classes of stock excepting the very young calves were in demand. Demand was especially keen for all finished butchers and for all heavy grain feeders. The market for finished butchers and for all heavy grain feeders was very active and the price for all grades of cattle was very high.

Prices start soaring. The market for all grades of cattle was very active and the price for all grades of cattle was very high.
